

East Imperial Soft Announces Facebook Discounts

East Imperial Soft, the manufacturer of an extensive range of data recovery tools, opens a Facebook account and announces a 50% discount to Facebook users. Facebook users who connect with East Imperial Soft on Facebook receive a discount code for a 50% discount towards the purchase of any data recovery product sold by the company.

“For our company, Facebook is not just another marketing channel”, says Stanislav Ermolov, East Imperial Soft CEO. “We don’t plan on opening a corporate account and letting it sit idle. Instead, we’ll be regularly publishing special offers and offer unique coupons and discounts only available to Facebook users”.

To celebrate the opening of a Facebook account, East Imperial Soft offers all Facebook users an opportunity to save 50% off retail on all data recovery products sold by the company. In order to use the special offer, customers should connect with East Imperial Soft on Facebook at <https://www.facebook.com/magicuneraser> and click on the “Buy Now” link.

Data Recovery Tools Sold by East Imperial Soft

East Imperial Soft offers a wide range of data recovery tools.

Magic Partition Recovery is the company’s top of the line data recovery tool allowing its users to extract information from formatted disks, deleted partitions and badly damaged storage media. Sophisticated data recovery algorithms used in Magic Partition Recovery open the possibility of recovering information from severely damaged and otherwise inaccessible media. Customers requiring a FAT-only or NTFS-only version of Magic Partition Recovery can realize substantial savings by ordering either Magic FAT Recovery or Magic NTFS Recovery.

On the other side of the spectrum the company features Magic Uneraser, a wizard-based file undelete tool. Magic Uneraser makes recovering deleted files and folders as quick and easy as browsing the disk with

Windows Explorer. Magic Uneraser recognizes all types of magnetic and solid-state storage media including hard disks, memory cards and USB flash drives.

In addition, East Imperial Soft offers two specialized tools for recovering office documents and digital images: Magic Office Recovery and Magic Photo Recovery. Customers requiring support for a single office format can save by ordering Magic Word Recovery or Magic Excel Recovery.

About East Imperial Soft

Founded in 2002, East Imperial Soft develops end-user data recovery products for Microsoft Windows. The company's wide range of recovery tools covers the needs of novice computer users and data recovery professionals. The company offers end-user solutions that combine advanced technical capabilities with the level of usability allowing its products to be used by home users and professionals altogether.
